XF01
Filter Set

XF02
Primary Rotating Filter

XF03
Charcoal Impregnated Stationary Filter

XF02

Primary Rotating Filter

The XF02 filter element rotates at the same speed as the fan blades. Fumes and nail residues are evenly distributed.

(set of 5)

XF01 Filter Set with 1 - XF02 and 1 - XF03

XF02 Primary Rotating Filter (set of 5)

XF03 Charcoal Impregnated Stationary Filter (set of 5)

power supply

- SR571** for 100V (Japan)
- SR538** for 115V (U.S.A.)
- SR572** for 230V (Europe)
- SR821** for 230B (U.K.)

XF03

Charcoal Impregnated Stationary Filter

(set of 5)

*Black is the standard color. For color selections, specify W, B, G, or R after the part number. Example FFX10-1R for red fan assembly.

Filter Replacement

1. Pull out dirty filter from hub when fan is off.
2. Replace with new XF02 Primary Rotating Filter

Green LED
(indicates air flow towards fan)

Front View
(air input)

Yellow LED
(indicates air flow away from fan)

Rear View
(air output)

Universal 12VDC Input
Jack Type: J4 Female 2.1 mm x 5.5 mm. Recommended 12VDC, 500mA Power Supply

Variable Positioning

For Removing Fumes

The XF02 and XF03 filter elements can be used separately. For maximum filtration, install both filters.

Position the FXF14 close to the working area to extract residue from the air.

features

- Powerful 12V fan motor removes unwanted fumes, powder residues and odors from the air
- Can be used to either filter or blow dry clients nails
- Ultra-quiet operation
- Rotating front filter provides filtration eight times better than a stationary filter
- Bright front (green) and rear (yellow) LED's to indicate power and air flow direction
- Adjustable to almost any working angle
- Quick filter replacement
- Internal safety grills

specifications

Power
Requirements 12VDC

Overall
Dimension 5.5"W x 12"H x 5.5"D
140 mm x 305 mm x 140

Weight 1.09 lbs (.49 kg)
